Introduction :

In an attempt to improve the quality of both teaching and the pedagogical performance for the 2019/ 2020 academic year, the Ministry of National Education via the General Inspectorate of Pedagogy has issued the following learning progressions as a complementary tool to the reference documents in use. In addition to the accompanying documents, the present document is thus intended to facilitate understanding and implementation of the curriculum. These progressions also allow the achievement of coherence with the pedagogic assessment plan. Henceforth, practitioners (teachers, inspectors…) are requested to get an insight into the underlying principles of these progressions to put them into practice. The inspectors are expected to accompany teachers, particularly the newly appointed ones.

Methodological note

The educational curricula and their accompanying documents state in their preambles important pedagogical orientations related to their implementation. However, the adoption by the Ministry of time-bound linear annual distributions of the programs and the field practices showed their limits. This led to the necessity to provide an alternative for effective learning by the implementation of learning progressions.

Unlike the yearly distributions whichimpose the date, time, the number of sessions in order to respond to the desire to unify content, the pace of programs' achievement, deadlines for officialexams, the learning progressions focus on the syllabus implementation methods. The latter take into account the learners' learning pace, their abilities and learning autonomy.

In these progressions, the pre-requisites are highlighted in order to draw teachers' attention to the importance of the learners' background knowledge while preparing lessons and help them regulate their teaching.

Guidelines for implementation:
- **The items in bold refer to pre-requisites.**
- **At the beginning of each unit, teachers are requested to check the level of assimilation of the pre-requisites through a diagnostic test and regulate their teaching accordingly**
